Windowmaker 2022 R1.1

What's New

This section lists the important features/updates introduced in this release.

General Enhancements

SQL Server 2012 & 2014

Microsoft has stopped support to SQL Server 2012 & 2014. Windowmaker products will stop supporting these in the coming release. Therefore, we recommend upgrading to the latest SQL version at the earliest.

Refer [Technical Requirements](#) for more details.

FENSA Registration - Preferences Settings

Preferences → Export: FENSA Registration Settings are now obsolete, and are removed.

Enhancements to Options

Optimaker - Settings

Preferences → Optimaker settings are now moved to Application Settings → Manufacturing: Optimaker.

Conservatory - Settings

Preferences → Export: Conservatory setting is now moved to Application Settings → Sales: Link to CAD.

Issues Fixed

Sales – Order Entry – Line Configuration – Grids 21334

The problem with spokes not getting calculated correctly is now fixed.

Manufacturing – Reports- Grid Cutting List - 19208

Sizes in Grid Cutting List report were blank when Sizes other than <Default> are selected. This is now fixed.
