Windowmaker 2023 R3

General Enhancements

Reports - Preview

The Preview facility currently generates a PDF and opens it in the default PDF application. The application may allow editing and saving report outputs. As this is done external to Windowmaker, the edited reports are also not saved in History. Sales personnel may use this to manipulate and send documents to customers. To restrict such malpractices, an Application Setting 'Use Windowmaker PDF Viewer' is now available to preview the reports. This does not allow editing or saving reports. This is only applicable to Users with Preview Reports rights.

Reports - Download

The Sales Line level reports now have the Download facility.

Reports - Frame Labels

A new standard Frame Labels report is now available. It uses roll type stationery with label size 4" w x 1.5" h.

Reports - Costing, Pricing

The 'Costing, Pricing' report now allows a subtotal for specified Costheads. These are output for the Sales Lines/Header costing and pricing. It also gives the Totals including all the Costheads. For Price List approach, the Totals will always print the total Sales Line/Header pricing.
